List of UKPHR Board approved relevant undergraduate (Bachelors) degree courses

Applicants who are not graduates of an IUHPE EuHP accredited course have to provide evidence of graduating from a relevant undergraduate degree.

Relevant course include: public health, health promotion, health education and social sciences including psychology, epidemiology, sociology, education, communication, environmental health, community, urban or rural development, and political science.

Other academic qualifications may also be deemed appropriate, but must be approved by UKPHR's Board of Directors. A list of all previously accepted graduate qualifications will be listed below.

Course Name	University Name	Date of approval by UKPHR Board
